INSTALLATION AND USER MANUAL

Dear Customer,

All of our products have been checked and tested at every step, from the design process to the production and delivery process, to ensure that you enjoy the products and use them safely for many years.

Before starting the assembly, take all the parts out of the box and check them according to the assembly manual. If you have purchased more than one product, install the products in order to avoid mixing parts and accessories.

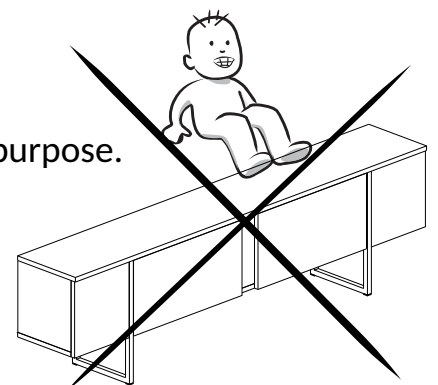

Before starting the assembly, clean each part with a damp cloth. This cleaning will also be sufficient for general use of the product.

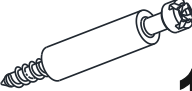

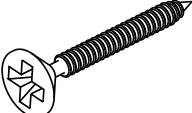

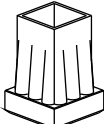

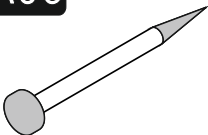

Although the products are carefully checked and packaged, if you encounter a problem during shipping, you can check the necessary parts and contact us.

Any problem that occurs will be fixed free of charge as soon as possible.

Do not use your furniture for purposes other than its intended purpose. Please contact us when considering different purposes of use. Furniture can be damaged when it comes into direct contact with cold, heat or moisture. Therefore, prevent your furniture from coming into direct contact with these factors.
