

BIKOUT 840 560gr

It Inkjet Media is designed for solvent-based digital printing. The black inlay and the exclusive surface treatment of the blackout media provides 100% opacity to allow for printing with different contents on both sides with no impact each other, and much cost can be saved, printing result is splendid. For its capability of good ink absorption, superb flexibility and tractility, PVC blackout is widely used indoor and outdoor advertising.

Features:

1. One or both sides printable without showing through.
2. White substrate for wide format digital printing.
3. 100% opacity so that graphics can not show through.

Application:

1. Billboard (frontlit).
2. Banners.
3. Displays (indoor and outdoor).
4. Window shades and retail window display.

Note:

Optional treatment need additional cost. Detail information please contact our sales.
